*Note on BE:* Syrian refugees were resettled from Turkey.

*Note on FI:* Syrian refugees were resettled from Turkey and refugees from the Democratic Republic of Congo were resettled from Zimbabwe.

Resettlement of emergency cases covered 100 different nationalities.

*Note on IE:* all persons resettled from Lebanon were of Syrian or Iraqi nationality.

*Note on LT:* all persons resettled from Turkey were of Syrian nationality.

*Note on SE:* Numbers refer to persons that were granted a residence permit under the Swedish resettlement scheme, not the number of actual transfers during the year, which was 3 041. The number of permits granted is higher than the number of transfers, as the Migration Agency also granted permits to persons to be resettled during 2018. Selections were mainly carried out in the MENA region.

*Note on UK:* Sex breakdowns may not equal the total number resettled due to a small number of cases where sex is unknown. Data on countries from which third-country nationals are resettled are not available. The following top 5 nationalities relate to nationalities of those who have been resettled: Syria, Iraq, Democratic Republic of Congo, Sudan, and Somalia.

The denominator in the total population consists of the same age group, excluding the respondents who have not answered the questions “highest level of education or training successfully completed and ‘participation in education and training’”.

Statistics not provided for DK, RO

Data on BE: In the category other forms, the data refer to human smuggling with aggravated circumstances (except for one case (+18) for who multiple forms of exploitation were registered

Data on BG: The presumed VOT was supported at the shelter for a temporary accommodation and support for victims of human trafficking of the National commission for combating of trafficking in human beings (NCCTHB) managed by the Demetra NGO in the region of Burgas, Bulgaria. The VOT received humanitarian, medical, psychological and social assistance, as well as initial legal counselling concerning her specific rights as a victim of the human trafficking crime was carried out with the woman. She was also consulted concerning the possibility of filing an application for international protection. Pre-trial proceeding was initiated by the law-enforcement authorities, having in mind her will to cooperate to the investigators and prosecution. At the same time, the Burgas prosecution office refused to initiate a criminal proceeding for human trafficking. The VOT wanted to return to her home-country and to her family and children. The safe voluntary return process was organized via IOM and in coordination with the shelre, a crisis centre in Sofia and the NCCTHB.

Data on CY: No such data available. Data concern persons who applied for asylum as UAMs (total for 2017: 221)

Data for CZ: Statistics available only regarding the presumed victims. These statistics express only the number of third country nationals included in the “Programme of Support and Protection of the Victims of Trafficking in Human Beings”. The number of children under 18 years of age are calculated separately and are not included in the Programme.

Data on DE: Figures for 2017 will be published in 2019

Data on EL:\* the total number includes the nationalities below, Greek, Albanian, Afghani, Bulgarian, Moldovan, Ukrainian, Romanian, Russian.

Data on FR: No information is available for presumed victims of THB in France as information on this status depend on elements collected during the police investigation.

Figures related to victims of sexual exploitation are collected in the framework of police inquiries and do not record all victims of sexual exploitation but it concerns the number of victims identified in cases where the qualification of trafficking has been recognized.

Data on FI: Assistance system for victims of human trafficking

Data on LU: For 2 identified victims of sexual exploitation the country of origin is unknown and therefore not included in this table

Data on LV: Sexual exploitation took place in the country of origin. Due to the fact, that both persons were granted international protection, and the numbers are so small, we cannot name citizenship.

Data on NO: Statistics NO: Norway cannot provide a total national number of identified VoT's for 2017. The National Coordinating Unit for Victims of Trafficking (KOM) is currently improving their reporting mechanisms and their statistical methods for gathering these data. The Norwegian Directorate of Immigration (UDI) made 82 decision concerning residence/asylum cases of VoT's in 2017. This number does not reflect the total number of VoTs identified or receiving assistance in Norway in 2017. Norway does not have a formal identification authority. The number includes EEA citizens.
